The Hon'ble Mr GREEN replied —

A copy of the project report and estimates of the proposed Khulna-Barisal Faridpur Railway has been received from the Railway Board for an expression of the views of this Government on the alignment waterways etc proposed for the line This Government are still examining the very difficult problems which are involved and have not yet found themselves in a position to express a final opinion

by the Hon'ble BABU SURENDRA NATH RAY —

5th Oct Sale *2 (a) Has the attention of Government been drawn to a recent case of fire in the Khardah Jute Mills and the inability of the Calcutta Fire Brigade to render any help on account of a rule which restricts its operation

Questions and Answers

Mr De, Raja Hrishikesh Laha, Mr Green, Babu N L Ray, Mr Kerr

(*b*) Are the Government considering the desirability of modifying the rules in order to bring the Mills on both sides of the river Hooghly up to Naihati on the east and Kelimpur on west of that river within the scope of the Calcutta Fire Brigade?

The Hon'ble MR DE replied —

"(*a*) Information was received by the Calcutta Fire Brigade on the evening of the 3rd March 1916 that a fire had broken out at the Khurdah Jute Mill The Fire Brigade were unable to send appliances as the fire was at a considerable distance beyond the radius of 6 miles within which they are authorised to attend under Notification No 1850 T M dated the 20th August, 1915 The Chief Officer a station officer and twelve khalasies visited the scene of the fire during the night

(*b*) Government have under consideration the revision of the rules framed from time to time under section 31 of the Licensed Warehouse and Fire Brigade Act and will be prepared to sanction the extension of the radius of action of the Calcutta Fire Brigade so far as is possible without disproportionate increase in capital and recurring expenditure They are advised that with due regard to these considerations there is little chance of the radius being extended at present to the limits suggested by the Hon'ble Member The outlying mills must look for protection against fire to the efficiency of their own fire drill and appliances'

Budget

BUDGET OF THE GOVERNMENT OF BENGAL, 1916-17.

PART I—General Review

(1) ACCOUNTS FOR 1914-15

In the revised estimate for 1914-15 which was laid before the Council on the 27th March 1915, the receipts of the year were taken at Rs 6,20,06,000 and the charges at Rs 6,56,86,000, while the estimated closing balance was Rs 2,81,31,000. The accounts of the year, which have now been finally closed show that the actual receipts amounted to Rs 6,22,09,895 and the charges to Rs 6,67,60,684, and the closing balance was Rs 2,72,60,323. The receipts were thus better by Rs 2,03,895 this improvement having occurred chiefly under Provincial Rates (Rs 60,453), due to realization of arrear Public Works Cess, Income Tax (Rs 42,305), owing to the continued prosperity of banks and industrial concerns in 1913-14, Jails (Rs 1,03,256) on account of larger supplies of gunnies and other manufactures to the Military and other departments, and Civil Works in charge of the Public Works Department (Rs 92,750), owing to the sale of the old Presidency Jail buildings and the surplus profits of the Darjeeling-Himalayan Railway. The actual charges were also higher by Rs 10,74,684, chiefly under Refunds and Drawbacks (Rs 36,906) due to heavy refund of license fees for Excise shops towards the closing months of the year, and refund of Public Works Cess. Courts of Law (Rs 74,200), on account of larger payments to pleaders and counsel in political cases, Education (Rs 6,84,022), chiefly caused by the payment of Rs 1,59,000 to the Calcutta University being the unspent balance of the eight lakhs grant sanctioned for the acquisition of the fish market adjoining the University buildings and by the payment of arrear salaries consequent on promotions to the Provincial and Subordinate Educational Services being sanctioned from 1912-13 and Civil Works in charge of the Public Works Department (Rs 8,81,625), due to larger expenditure in the latter part of the year and larger advance collection of road metal.

(2) REVISED ESTIMATE, 1915-16

2. The revised estimate for 1915-16 as now passed, on the basis of the actuals of the first nine, ten or in some cases eleven, months of the current year is compared below with the sanctioned estimate for the year —

	Sanctioned estimate	Revised estimate	Better (+) or worse (−)
	Rs	Rs	Rs
Opening balance	2,81,31,000	2,72,60,000	−8,71,000
Revenue receipts	5,61,40,000	5,68,16,000	+6,76,000
Transfers between Imperial and Provincial Revenues	+56,67,000	+58,15,000	+1,48,000
Total receipts	6,18,07,000	6,26,31,000	+8,24,000
Grand Total	8,99,38,000	8,98,91,000	−47,000
Total expenditure	6,58,29,000	6,40,01,000	+18,28,000

Budget

3 The increase under Transfer between Imperial and Provincial Revenues is due to the following additional assignments —

	Rs
Additional assignment for forms, etc for the Assam Administration	+81 000
Assignment for forms etc for Bihar and Orissa	+45,000
Assignment to Bihar and Orissa in connection with training of shoals in the Ganges	-10 000
Reduction in the assignment from Bihar and Orissa in connection with fishery experiments	-7 000
Additional assignment in connection with scientific research by Dr J C Bose	+31 000
Assignment for Archæological works	+8 000
Total	+1,48,000

4 The increase of revenue is the net result of increases under some heads and decreases under others The improvements aggregate Rs 24,21,000 , and are chiefly under the following heads —

Land Revenue—(Rs 3,31 000) due to better collections of ordinary revenue and collections from Government estates owing to improvement in the jute trade and to the sale of certain khas mahal lands to the Calcutta Improvement Trust

Stamps—(Rs 9 50 000) due to larger sales of both general and court fee stamps owing to the partial recovery of trade as well as the opening of the Share Market which remained closed during the last few months of 1914-15

Provincial Rates—(Rs 1 15 000) due to collection of arrear Public Works Cess for 1912 13 and preceding years

Income Tax—(Rs 3 50 000) due to better collections from banks and industrial concerns than expected last year

Registration—(Rs 1 00 000) due to an increase in the number of registrations owing to the effects of flood and scarcity in certain tracts and the rise in prices

Jails—(Rs 1 73 000) due to larger supplies to the Military Department

Scientific and Miscellaneous Departments—(Rs 1 67 000) chiefly under Cinchona plantation on account of larger sales of quinine

Civil Works in charge of the Public Works Department—(Rs 1 75 000) mainly due to adjustment of the value of bricks dismantled from the Secretariat buildings at Dacca and to the sale proceeds of the Calcutta Police Office buildings

The decrease on the other hand amounts to Rs 17 15 000 and is mainly under the following heads —

Excise—(Rs 10 00 000) due to smaller consumption owing to high prices of food grains to scarcity in some areas and to economic conditions arising from the war

Forests—(Rs 3 25 000) caused by the slump in trade on account of the war and shortage in sales of timber in the Sunderbans, Jalpaiguri and Buxa on account of bad market conditions

Courts of Law—(Rs 73 000) mainly under General fees fines and forfeitures

Ports and Pilotage—(Rs 2 05 000) due to smaller receipts from pilotage in the Port of Calcutta owing to the effect of the war on shipping

Miscellaneous—(Rs 60 000) chiefly under unclaimed deposits

5 On the expenditure side the revised estimate shows a total decrease of Rs 35,05 000, which is mainly under the following heads —

Land Revenue—(Rs 1 29 000) due to savings in the grants for salaries and Survey and Settlement charges and in the grant for the improvement of Government estates owing to the enforcement of economy

Forests—(Rs 46 000) mainly to retrenchment of expenditure

Budget

Ports and Pilotage—(Rs 71 000) due to the dislocation of seaborne trade which reduced the earnings of pilots

Education—(Rs 16 01 000), due to savings in the Imperial grants for both recurring and non recurring expenditure

Medical—(Rs 8,61,000) due to savings in the grant for works of sanitary improvement and non utilization of the grant for equipment of the School of Tropical Medicine and the transfer of a portion of the grant for sanitation to the heads Civil Works in charge of civil officers and the Public Works Department

Scientific and Miscellaneous Departments—(Rs 41 000) due to savings in the grants (1) for supplies and services of the Cinchona Factory (2) for Inspector of Factories (3) for fishery experiments, and (4) for the charges of the Registrar of Joint Stock Companies

Superannuation—(Rs 2,56 000) due to smaller payments for commutation of pensions and savings in the grant for retired allowances

Stationery and Printing—(Rs 70 000) due to savings partly in the Government presses and partly under stationery supplied from Central Stores

Miscellaneous—(Rs 3 58,000) chiefly due to the transfer of charges for grain allowance to the different departments by re appropriation from the lump provision and partly to the adjustment of grants made by His Excellency to the appropriate heads

On the other hand, there was a total increase of expenditure of Rs 16,77,000, of which the most noticeable items are —

Courts of Law—(Rs 4,16,000), due to larger payments to pleaders and counsel in connection with political and other cases and to charges under the Defence of India Act

Jails—(Rs 2 36,000) on account of increased expenditure under rations and larger purchase of raw materials for the manufacture of supplies to the Military Department

Police—(Rs 4 91 000), due to the debit of grain allowance charges by transfer from 32—Miscellaneous, and to larger expenditure on Supplies and Services and Contingencies of the District Police

Civil Works in charge of the Public Works Department—(Rs 3,12,000), due to additional grants sanctioned for land acquisition and construction of buildings, for the Dacca University, Baker Hostel and Calcutta University Institute and other works

Civil Works in charge of the Civil Department—(Rs 47,000), due to grants to local funds for works of sanitary improvements by transfer from Medical

6 The net result of these changes is that the closing balance of 1915 16 which was estimated in March last at Rs 2 41,09 000, is now placed at Rs 2,58,90,000 The increase is chiefly due to smaller expenditure under Education Medical and Superannuation as mentioned above, and partly to the special assignments mentioned in paragraph 3 and to increase of revenue under Stamps, Income Tax and Land Revenue

The Forms Department has been amalgamated with the Presidency Jail Press from the beginning of 1915 16 The savings in 1915 16 under Government Presses were chiefly under overtime and contingencies The decrease under Presses in 1916 17 is due to smaller requirements of European stores for the Presidency Jail Press

57 *Miscellaneous* —The budget estimate for 1915 16 was Rs 10 16 000 but in the revised estimate this has been reduced to Rs 6 58,000 The reduction is chiefly due to the adjustment under the appropriate heads of the expenditure on grain allowance and the charges sanctioned by His Excellency from the provision for petty grants and to the reappropriation of [illegible] of Rs 1,50,000 [illegible]

Budget

Rs 2½ lakhs was sanctioned under Gratuitous relief The estimate for 1916 17 is Rs 12,28 000 and includes the following items —

	Rs

58 *Irrigation Major Works (Working expenses)* —The actual expenditure during 1914 15 was Rs 2 57,700 and the estimate for 1915 16 was Rs 2 67 000 but in view of the actuals of the first nine months of the year the revised estimate has been reduced to Rs 2 00,000 The decrease is chiefly due to reduced expenditure on maintenance and repairs of the Midnapore Canal The budget for 1916-17 has been placed at Rs 1,90,000 which is the minimum required to keep the canals in an efficient state of working No expenditure is anticipated on silt clearance in the High Tidal Canal The Provincial share (one half) is Rs 95 000

59 *Irrigation Minor Works and Navigation* —The actual expenditure during 1914 15 was Rs 27,59 694 and the estimate for 1915 16 was Rs 22,92 000 but in view of the actuals of the first nine months of the year this estimate has been reduced to Rs 22 50,000 in the revised estimate The decrease is under Agricultural and Drainage works The estimate for 1916 17 is Rs 20 92 000 and includes the following items —

	Rs

The creation of a spill from the Bidyadhari river is a work of extreme urgency if it be deferred for even two or three years the removal of the Calcutta Sewage outfall and the stoppage of all navigation through the Dhapa lock at an expenditure which can barely be estimated—certainly not less than a crore of rupees—will have to be faced The Provincial share is one half and amounts to Rs 11,25,000 for 1915 16 and Rs 10,46 000 for 1916 17

60 *Civil Works in charge of the Public Works Department* —The estimate for 1915 16 was Rs 61 88 000 but in the revised estimate this has been raised to Rs 68 00,000 on account of expenditure of the special grants sanctioned during the year for the Dacca University, Calcutta University Institute Baker hostel *guru* training schools and several other projects The estimate for 1916 17 is Rs 52,60 000, and is distributed as shown below

Budget.

Thus represents the cost of supplying guards to watch factories which are making shells and other munitions of war for Government.

It is necessary to increase the police force employed on the Sealdah section of the Eastern Bengal Railway as crime has in recent years developed in several police stations. Extra staff is also necessary for adequate police arrangements in the Sealdah Station which, under the new arrangements, has three separate blocks of platforms with separate booking offices waiting halls, hackney carriage stands etc.

The scheme was placed in the optional schedule in 1915-16 but on account of financial stringency nothing could be provided

It is now proposed to make a lump provision of Rs 8 000 for this so as to give partial effect to the scheme.

Budget—Resolution

Mr Beatson Bell, Maulvi Musharraf Husain

He said —

'My Lord I present to the House the budget of the Government of Bengal for 1916-17 There has been no change in the figures since the Budget was last before the House I need not say anything further at this stage '

LIST OF BUSINESS—ITEM NO 3

RESOLUTION.

(*Under the Rules for the discussion of matters of general public interest*)

The Hon'ble Maulvi Musharraf Husain, Khan Bahadur, moved the following resolution —

This Council recommends to the Governor in Council that early steps be taken to amend the Court of Wards Act, 1879 (Ben Act IX of 1879), with a view to extend the provisions of that Act so as to protect and bring under the direct management of Government the properties of minor children of tenureholders and other disqualified members among such tenureholders

He said —

My Lord, the Court of Wards Act at present protects the disqualified proprietors of an estate which ordinarily means the right held by a landlord directly under Government Anybody acquainted with the land tenure of Bengal knows that, besides the right of zamindars over a land, there exist subordinate rights which are permanent and which to all intents and purposes are as good rights over the land as that of a zamindar, which are usually held by pattanidars dar-pattanidars, rent free and other tenureholders The Government of Bengal, as early as 1809, provided for the protection of the minor children of a proprietor and other disqualified members among them by taking up the management of their estates directly under Government and saving the property from ruin But no such provision has been made for the direct management by Government of the properties of the minor children of tenureholders and other disqualified members among these tenureholders The Guardians and Wards Act provides for the appointment of a guardian of the person and property of a minor These guardians are generally appointed on the application of the persons who want to be the guardians themselves One can easily understand the motive of such volunteer guardians Without criticizing a class, I simply want to say that the majority of such persons mismanage the property and ruin the interest of the persons whose property they have volunteered to protect Some sixty years ago when the Court of Wards Act was enacted the value of the land in Bengal was very small The rights subordinate to that of a zamindar, however permanent they might have been, were of very little value But things have altered The tenures have become valuable properties It has become necessary that these tenures should be better protected However some may disagree as to the quality of the management of the Court of Wards, it is admitted by all that its existence is a necessity and in spite of its shortcomings, which every human institution must have, it has succeeded in persuading people to believe that the management of the Court of Wards has really saved many a family from ruin

I invited the opinion on my proposed amendment of the said Act from all chairmen of municipalities, vice-chairmen of District Boards secretaries, Anjumani-Islamia, and Government pleaders of this Presidency All the replies that I have got up to date recognise the necessity of the proposed amendment, and urge me to move the same in the Council and wish me every success. I have received replies from 28 municipalities and eight District Boards, and of these 28 municipalities, all of them accept the principle, and only one or two of them want a little modification I will read only a few opinions out of the many that I have received on this point

[illegible]

Resolution

Maulvi Musharraf Husain

the Noabad Talooks on the estate, the property of Government, which is known as Government Noabad Mahal in Chittagong, are deemed as estate' as described in clause 2, section 3 of Act VII (B C) of 1876 It will further appear that such Noabad tenures of Chittagong would be included within the term 'estate as defined by section 3 of Act IX (B C) of 1879 (Court of Wards Act), consequently holders of such tenures, if disqualified would be in a position to take advantage of the provisions of that Act

As the Government extended the protection afforded by the Court of Wards Act to Noabad tenures of Chittagong it is hoped that Government may be moved to extend the same protection to the disqualified holders of other tenures

I am therefore distinctly of opinion that it would be advisable to endeavour to extend the operation of the Court of Wards Act for the protection of the minor children of the tenureholders and other disqualified members among them

The Chairman of the Comilla Municipality says that if the Act is extended to make provision for placing the properties of minors and disqualified tenureholders under the management of the Court of Wards, a large number of properties will doubtless be saved from ruin

The Chairman of the Burdwan Municipality says —

'I fully agree with you in the view that the law ought to be amended so as to extend its operations to safeguard the interests of the minor children of the tenureholders and other disqualified members among them in the same way as it does to disqualified proprietors of estates The former constitutes the general mass of the population and I am sure you will have the hearty support and concurrence of all right thinking persons in the country in this your generous endeavour to ensure the protection of the general mass of the population

The Chairman of the old Malda Municipality says —

The supported measure would meet with the approval of many people as it is desirable that the protection provided for in the Act for the landholders should be extended to tenureholders as well

Your Excellency will see that my measure has got the hearty support and approval of my countrymen With such support, I beg to ask the official and non-official members of this Council to consider my resolution in a dispassionate manner When I entered this Council Chamber, I was told that this measure can only be opposed or objected to by one influential class of persons, and they are the zamindars With reference to the opposition that might come from that quarter I beg to state that the tenureholders or the general mass of the population are not asking for any right which will be taken away from the zamindars such as, for instance, the right of the transferability of the occupancy holding I could understand that such a proposal might be vehemently opposed by the zamindar But my resolution amounts to a purely protective measure It will not give any right to one class of people by snatching it away from another class And if the middle class people want this protection at the hands of the benign Government I do not think that any right thinking person can oppose Government granting any such protection to this class of persons Of course the tenureholders get some protection under the Guardians and Wards Act The protection which the Civil Courts render under the Guardians and Wards Act is a very round about one The influential class of zamindars is receiving protection in a fair and definite way by the Court of Wards Act, and I do not understand why the tenureholders should not get the same sort of protection These tenureholders are as good subjects of the King-Emperor as the other classes are If they want any protection from Government, I do not understand why they should not get it I beg to submit that this measure

Resolution

Mr Beatson Bell, Babu Ramtaran Banerji

With these few remarks, I beg to commend this resolution for the acceptance of the Council'

The Hon'ble MR BEATSON BELL said —

'My Lord, it will be convenient if I state very briefly the attitude of the Government towards this resolution My friend, the Hon'ble Khan Bahadur, has been propounding theories of a somewhat socialistic character At the back of all his arguments lies the proposition that it is the duty, or the privilege, of Government to manage the business of every man who is making a mess, or is likely to make a mess, of his own business This is a far reaching doctrine and we must really consider, in the case of each class of business, what limits should be applied to the doctrine So far as landed property is concerned, it is, I think, a historical fact that the Court of Wards was instituted not for the purpose of helping every landlord of every degree who has got into a mess but simply for the purpose of realising public revenue with proper punctuality, but at the same time with the least possible hardship in the case of ladies and minors and other persons in a similar position It therefore behoves us to consider very carefully before we extend the Court of Wards Act from proprietors, that is to say from revenue-payers, to other classes of landlords We have an open mind upon this question, subject only to a natural desire to make no amendment unless it is really called for I do not know whether my friend is aware that there are few provinces in India in which this privilege has been extended to classes other than zamindars Before we do anything, we must ascertain the opinion of the zamindars—both the individual opinion of the great zamindars and the considered opinion of the zamindari societies If these zamindars individually and collectively, are anxious that the privilege, which has hitherto been confined to themselves, should be extended to those subordinate to them, we shall give due weight to such an expression of opinion We must also consult the body which is immediately concerned, I mean the Court of Wards itself or, in other words, the Hon ble Board of Revenue The Board will no doubt consult experienced Commissioners, Collectors and managers and will give a most important opinion on the whole case

I have been interested to learn that the Hon ble Khan Bahadur has been consulting Municipalities and District Boards on this question The opinions of the Municipalities and District Boards are, no doubt, interesting, but I may say without any disrespect that the question hardly concerns them, it is a question mainly for the Court of Wards for the experienced officers of the Government, for the zamindars and tenureholders themselves to consider in all its bearings Therefore, if my friend slightly modifies his resolution and instead of the word 'amend' he inserts the words 'obtain official and non-official opinion on the advisability of amending' we are at once prepared to accept the resolution If, on the other hand, the Hon ble Khan Bahadur desires to go on with his resolution in the form in which it stands, I have only to say that the official members will stand aside from the discussion and will allow it to be debated and voted on by the non-official members

The Hon'ble BABU RAMTARAN BANERJI said —

"My Lord, I am in strong sympathy with the object which the Hon ble mover of the resolution has in view But I am afraid the resolution ought to be amended in order that its intention may be more clearly expressed The object, I take, is to secure to disqualified holders of tenures the same protection as has been conferred upon disqualified proprietors of estates if so the protection attaches to disqualified holders of tenures who have come to own them by succession or otherwise, and not to the minor children of, or other disqualified members amongst, such tenureholders as the words of the resolution purport to say If this is the intention of the Hon'ble mover it may be expressed by substituting the words 'the properties of disqualified tenureholders' in the place of 'properties of minor children of tenureholders etc, etc Moreover, under the Court of Wards Act, the management of the

Resolution

Maulvi Musharraf Husain, Mr Beatson Bell

Board of Revenue which has, under the said Act been constituted the Court of Wards and is vested with the jurisdiction to take charge of the person and property of every such proprietor I would suggest that it would be more appropriate to use the words 'Court of Wards in the place of the word 'Government

The Sovereign is the *parens patriæ* and the Court exercises paternal power in the case of infants and persons of unsound mind The principle fairly applies equally to cases of proprietors of estates as well as tenureholders though in the case of the former the interest of Government revenue and other considerations have led to an express enactment

The case of proprietors of other landed interests seems not to have been entirely overlooked Section 10 of the Court of Wards Act to some extent furnishes the remedy which the resolution aims at

The section provides that whenever a Civil Court is satisfied that an order for the appointment of the guardian of a minor should be made or removes the guardian of a minor or adjudges a person to be of unsound mind, the Civil Court may apply to the Court of Wards to take charge of the person and property of such disqualified proprietor This provision empowers the Civil Court to apply to the Court of Wards in the case of a disqualified person, whose estate consists in whole or in part of land or any interest in the land The section has been interpreted to apply also to cases of persons whose property does not consist of revenue-paying estates This will enable disqualified tenureholders to have their estates placed under the Court of Wards No doubt it is discretionary with the Court of Wards to take charge or not on the application of the Civil Court, but there is no reason to suppose that the discretion will not be properly exercised when the occasion arises The question raised is of some importance and requires good deal of consideration and I would unhesitatingly adopt the view of the Hon'ble Mr Beatson Bell'

The Hon'ble KHAN BAHADUR MAULVI MUSHARRAF HUSAIN said —

"My Lord, I beg to accept the amendment suggested by the Hon'ble Mr Beatson Bell

The Hon'ble Mr. BEATSON BELL said —

"My Lord, I agree with the Hon'ble Babu Ramtaran Banerji that the words 'Court of Wards should be substituted for the word Government and 'minor children of deceased tenureholders for minor children of tenureholders

The motion was then put in the following modified form and agreed to

This Council recommends to the Governor in Council that early steps be taken to obtain official and non-official opinion on the advisability of amending the Court of Wards Act 1879 (Bengal Act IX of 1879), with a view to extend the provisions of that Act so as to protect and bring under the direct management of the Court of Wards the properties of minor children of deceased tenureholders and other disqualified members among such tenureholders

Acts of the Indian Legislative Council assented to by the Governor General.

GOVERNMENT OF INDIA

LEGISLATIVE DEPARTMENT

The following Act of the Indian Legislative Council received the assent of the Governor General on the 20th March, 1916, and is hereby promulgated for general information —

ACT NO VIII OF 1916

An Act further to amend the Presidency Banks Act, 1876

WHEREAS it is expedient to amend the Presidency Banks Act, 1876, It is hereby enacted as follows :—

Short title

1 This Act may be called the Presidency Banks (Amendment) Act, 1916

Amendment of sections 36 & 45 Act XI of 1876.

2 In the Presidency Banks Act, 1876 (hereinafter called the said Act), the following amendments shall be made, namely —

(*i*) After clause (2) of paragraph (*a*) of section 36, the following clause shall be inserted, namely —

"(2A) India three-and a-half per cent stock, India three per cent stock, India two-and a-half per cent stock, or any other capital stock which may, at any time hereafter be issued by the Secretary of State for India in Council under the authority of an Act of Parliament and charged on the revenues of India"

(*ii*) In paragraph (*d*) of section 36 and in section 45, for the words and figures "clauses (1), (2), (3) and (4)," the words and figures "clauses (1), (2), (2A) (3) and (4) shall be substituted

Construction of references to certain clauses of section 36 Act XI of 1876

3 Any reference in the said Act to section 36, paragraph (*a*), Nos (1) to (5) inclusive, shall be deemed to include a reference to section 36, paragraph (*a*), clause (2A)

Validation of past transactions

4 Any business carried on or transacted, or investment made prior to the commencement of this Act which, if this Act had been in force, could have been validly carried on, transacted or made is hereby validated

STATEMENT OF OBJECTS AND REASONS

THIS Bill proposes to amend the Presidency Banks Act, 1876 (XI of 1876), so as to include India Sterling Stock among the securities in respect of which, or on the security of which, the Presidency Banks are authorised to transact business The Presidency Banks have, in the past, been under the impression that clauses (1) and (2) of paragraph (*a*) of section 36 of the existing Act already confer the power to transact business in this class of stock, and India Sterling stock purchased in this belief is already held The fact that the existing law does not specifically confer the power in question came to their notice incidentally in connection with the recent amendment of the Indian Trusts Act, 1882 (II of 1882)

2 It is considered desirable to make the amendment proposed not only in order to validate past transactions of the Presidency Banks, but also because India Sterling Stock, no less than securities of the United Kingdom which are already recognised, clearly belongs to the class of securities in which the Presidency Banks should be authorised to transact business The present Bill provides for the necessary amendment of section 36 of the Act, and also for certain consequential amendments in the Act which are self-explanatory

LEGISLATIVE DEPARTMENT

The following Act of the Indian Legislative Council received the assent of the Governor Gener on the 21st March 1916, and is hereby promulgated for general information —

ACT NO IX OF 1916

An Act further to amend temporarily the Indian Paper Currency Act, 1910

WHEREAS it is expedient further to amend, tem porarily, the Indian Paper Currency Act 1910 It is hereby enacted as follows —

1 (*1*) This Act may be called the Indian Paper Currency (Tem porary Amendment) Act, 1916

Short title and extent

(*2*) It shall be in force during the continuance of the present war and for a period of six months thereafter

2 Section 22 of the Indian Paper Currency Act, 1910 (hereinafter called the said Act) shall be construed as if for the words " forty millions " in the proviso to that sec tion, the words " one hundred millions " were sub stituted

Amendment of section 22 of the Indian Paper Cur rency Act 1910

3 Notwithstanding anything in sections 19 and 22 of the said Act, the Governor General in Council may direct that currency notes shall be issued for an additional amount, not exceeding at any time sixty millions of rupees, against Treasury Bills, as defined in the Treasury Bills Act 1877 equivale in value thereto and held by the Secretary State for India in Council as a reserve to secu the payment of such notes or of other curren notes of like amount

Special power to issue currency notes against British Treasury Bills

4 Notwithstanding anything to the contra in the said Act any secu rities created by the Gover ment of India and issued the Head Commissioner Paper Currency shall, f the purposes of the said Act, be deemed to securities purchased by the Governor General Council and the market-price, on the day su securities are issued to the Head Commissioner Paper Currency of similar securities shall deemed to be the price at which the securities created were purchased, and all references to sec rities so purchased, wherever occurring in the sa Act, shall be deemed also to refer to securities created, and all references to sums expend in such purchases or to prices paid therefor sh be deemed in the case of securities so created refer to such market-price, and the said Act shall construed accordingly

Power to include securities created by Government of India in reserve provided for by the said Act

5 The Indian Paper Currency (Amendme Ordinance, 1916, is her repealed

Repeal of Ordinance I of 1916

STATEMENT OF OBJECTS AND REASONS

The Indian Paper Currency (Amendment) Ordinance, 1916 (I of 1916), enabled the power of increasing the Paper Currency investment which was conferred by the Indian Paper Currency (Temporary Amendment) Act, 1915 (V of 1915) to be exercised, when desired, by means of (*a*) an increase in the sterling investment of the reserve, or (*b*) the creation of rupee debt *ad hoc*, thus facilitating transactions connected with the sale of the Secretary of State's bills, and also enabling full effect to be given to the original purposes for which Act V of 1915, already mentioned, was passed

2 As the latter Act continues in operation during the war and for six months thereafter, and the duration of the recent Ordinance will expire six months after its promulgation, it is proposed in this Bill to re enact the Ordinance in the form of a temporary Act having the same currency as Act V of 1915

3 While thus confirming the powers previously taken, which relate primarily to invest ment in the ordinary sense the proposed Bill confers on the Government of India the new power, independent of the investment limits already laid down, of issuing currency notes up to a maximum limit of £4 million against British Treasury Bills held by the Secretary of State British Treasury Bills are designated for this purpose because, by the Statute under which they are issued their currency is limited to a maximum period of twelve months, and their consequent steadiness of value and the readiness with which they can be realised render them specially suitable as a temporary substitute for gold The new provision now proposed thus differs from the ordinary provisions relating to investment, which contemplate a more or less permanent locking up of the funds invested

DEPARTMENT OF AGRICULTURE, BENGAL.

Forecast of the *Rabi* Crops of Bengal for 1915-16

(NOTE.—On the average of the five years ending 1913-14 the area under summer rice in Bengal represents some 0·5 per cent. of the total area under rice in British India.)

Character of the Season.—Although the rainfall during September and October was somewhat in defect in the greater part of the Province sufficient moisture was left in the soil for carrying on the sowing operations in usual time. There was scarcely any rainfall during the last week of October and the first two weeks of November. The growth of the crops was in consequence retarded, but the situation was somewhat improved by the good rainfall in the third week of the latter month. A period of drought, however, followed which extended up to the middle of February. During the last two weeks of this month light scattered showers fell all over the Province, but the rainfall so late in the season was not of much use as the crops had already suffered considerably. The weather conditions may be on the whole regarded as unfavourable.

Acreage—The normal area under the different *rabi* crops in the Province dealt with in the forecast is estimated at 3,959,700 acres The area actually sown this year is reported to be 3 025,600 acres against 3,124,800 acres (revised) last year, or a decrease of 99,200 acres The area under summer (*boro*) rice is reported this year to be 404,600 against 375,500 acres (revised) last year, or an increase of 29 100 acres The most notable increase under this crop this year, as compared with last year's estimate, is reported from Noakhali viz, 30,000 acres is returned this year against 3 000 acres last year The increase is attributed to the high price and the insufficient supply of rice obtained last year

Outturn—The estimated percentages of outturn in the sixteen districts where *rabi* crops are most important, are as follows —Nadia 49, Murshidabad 73, Jessore 52, Burdwan 69, Midnapore 80 Rajshahi 66 Jalpaiguri 86, Rangpur 100 Pabna 60 Malda 100 Dacca 79, Mymensingh 73, Faridpur 75, Bakarganj 75 Tippera 76 and Noakhali 71

According to the estimates of the District Officers, the outturn of the different *rabi* crops for the Province as a whole works out to 75 per cent against the same percentage of last year

Accepting 82 per cent as the outturn of summer rice, the gross yieldof the crop for the province on the basis of a normal yield of 13½ maunds of clean grain per acre, is estimated at 3,290 600 cwts against 3 202 900 cwts (revised) last year The increase works out to about 3 per cent on last year's outturn

The decrease in the area under other crops is due to the extension of boro cultivation. The late start of the winter rains is responsible for the low outturn of rabi crops. The early cessation of the rains affected the aman crops. The failure of the rabi crops is due to the absence of rain.

DEPARTMENT OF AGRICULTURE, BENGAL.

Special Forecast of the Wheat Crop of Bengal, 1915-16

[NOTE.—On an average of the five years ending 1913-14 the area under wheat in Bengal has represented some 0·8 per cent. of the total area under wheat in India. The ratio of irrigated wheat acreage to total wheat acreage in (a) British India and (b) in the territory now reported on has in the five years ending 1913-14 averaged (a) 37·6 per cent. and (b) 16·6 per cent. respectively.]

Explanatory.—This forecast which shows the final acreage and yield of the wheat crop in Bengal is published as a special case as was done last year under the orders of Government of India, Department of Revenue and Agriculture, in their Circular No. 3 (—dated 20th March 1916.

Character of the Season.—In the second forecast of the wheat crop the season up to January was characterised as fair. No rain fell during the first fortnight of February but during the last two weeks light showers fell almost all over the province. The small amount of rainfall however, after two and a half months of drought, did not materially improve the condition and prospects of the crop. The season therefore, although it proved satisfactory at the outset, was less favourable at the later stages.

Area Sown.—The total area sown with the crop this year is estimated at 133,600 acres, against 134,100 acres estimated both in the special and final forecasts of last year.

Outturn.—The outturn in the important wheat growing districts is as follows.—Nadia, 42 per cent., Murshidabad, 75 per cent., Malda 100 per cent. Pabna, 60 per cent. According to the estimate of the District Officers the provincial outturn works out to 78 per cent., against 62 per cent. of the normal as estimated in the corresponding forecast of last year. Taking the normal yield to be 10½ maunds per acre, the total yield for the province is estimated to be 40,195 tons against 32,100 last year.
